## Experience

### Frontend developer

Biapi- Cheraga | Jun 2020 - Current

- Working with Angular on web applications.
- Tests Manager for 2 years (Do global tests for all DONE tasks by the end of the sprint, and propose corrective actions of bugs, code review and ensure that the developer is avoiding errors already reported, propose UI improvements as a final user, check app's performance...).
- Built reusable code to reuse for other projects and to minimise costs (Ag-grid for angular, state management with RxJs).
- Contributed to back-end with NextJs and collaborated on APIs.

### Full-stack web developer

Biapi- Cheraga | Aug 2019- May 2020

- Prepare specifications documents, estimation files, study appropriate technologies and propose architectures.
- Created plans and communicated deadlines to complete projects on time.
- Coding small apps in both frontend and backend sides.
